

Hartford Republican

PUBLISHED EVERY FRIDAY MORNING.

J. B. ROGERS, Editor and Proprietor.

FRIDAY, FEBRUARY 12, 1892.

At two dollars and thirty cents per pupil the amount due the teachers of the county for the school year ending June 30th next, is \$18,864.80.

It is said that a man may be known by the company he keeps. He may also be known by the quality of his charity. Republican charity begins in America; Democratic charity, in England.

There are in Ohio county, according to the school census taken last April, 7,706 white pupils and 496 colored. A total of 8,202. There are 117 white districts, or an average of one district for every 65 pupils; eight colored districts, or one district for every 62 pupils.

The opponents of the McKinley Bill argued that its passage would have the effect of decreasing our foreign trade. On the contrary, our foreign trade has enormously increased. The old chestnut, to the effect that a Protective Tariff acts as a Chinese wall, is completely knocked out.

POSTMASTER GENERAL WANAMAKER holds every morning a short consultation with the four Assistant Postmaster-Generals for the purpose of discussing matters pertaining to each of their divisions, and giving each other the benefit of their mutual experience. It is an innovation which is highly spoken of by postal officials.

The Committee to decide upon a site for the proposed equestrian statue of Gen. Sherman has selected the lot just south of the Treasury department. The committee expects an appropriation of \$50,000 from Congress, which with the money on hand will make a sum sufficient to make the statue one of the finest in the city.

The Democrats on the House Post Office committee have decided to favorably report the bill for the repeal of the mail subsidy act of the last Congress, but it is not certain that the bill will pass the House, as there are quite a number of Democrats in the present House who worked and voted for the bill last year, because they recognized the necessity of extending better foreign mail facilities to our great commercial interests.

It will soon be time to nominate candidates for Circuit Clerk and Sheriff. Among those prominently mentioned for Circuit Clerk are W. F. Long, Silas Stevens, A. Lee Bennett, Herschel B. Taylor, Tim Stevens, Samuel Gaines, J. Bird Wallace, A. S. Aull. For Sheriff we hear the names of W. T. Brown, Ed. Renfrow, W. P. Render, W. W. Gaines, Virgil Renfrow, Nat Lindley, W. F. Condit, N. C. Daniel and others. Either of the men mentioned would perform the duties of the office used in connection with his name with credit to himself and honor to our party, and we have many more that would do the same.

THE ENFORCEMENT OF THE LAW.

For a law to be effective it must not only be sanctioned by public opinion as a law, but the officers who administer it must have the support of the people in its rigid execution. It is not sufficient in order to cure an evil for public opinion to demand the passage of a law against such evil—the people as a community and as individuals must see to it that this law is enforced against those who violate it, whether they be rich or poor, great or small and that, too, without fear or favor. A good law thus enforced will secure the objects of its passage.

If our people would reap the full benefits of the Prohibition Law they must demand in no uncertain terms its complete enforcement. No man should let that sickly sentiment—the fear of wounding somebody's feelings—deter him from the discharge of his plain duty to himself and his country. Let the officers of the law understand that every criminal must be brought to account and that in thus discharging their duty they will have the united moral support of the community and the problem is completely solved.

If some physician in Hartford were known to be dealing out poison to his patients; if some den of thieves were in our midst, carrying on their crime, every good citizen would hasten to add his mite of evidence and the weight of his influence, that the offenders might be brought to justice. But when in violation of law men are selling liquor, thus poisoning the physical and moral man and taking that which is really not their own, our citizens look at each other and say: "Things ought not to be so," and then proceed to wait for somebody else to take the steps necessary to stop this nefarious business.

Let every law-abiding citizen from this good hour resolve to put his sentiments into action and lend a hand toward realizing the ultimate triumph of the motto: Down with the Blind Tiger.

ANOTHER FLOP.

The Democracy for Policy Sake fast Changing its Silver Views.

Our Legislature Heeded the Warning—A Complete Somersault.

PERSONAL AND PRIVATE.

The Democratic party has either been acting under false pretenses in proclaiming itself in favor of the Free and Unlimited Coinage of Silver or else it is afraid to stand by what it believes to be right in a National contest. A little circular has been distributed over the State to the Democratic editors, and it was passed around among the members of the Legislature the other day when the resolution in regard to Free Silver was before that body. It is indeed a very interesting little document, and as a copy has fallen into our hands we quote from it as follows:

To The Editor:

You may entirely disagree with the views expressed in the little pamphlet inclosed. Freedom of judgment in such matters belongs to every citizen. On one thing, and that a pure matter of policy, we undoubtedly do agree, which is: That it will be suicidal for the Democratic Party to pass a Free Coinage bill through the House this season.

You can do much to prevent it through your editorial utterances, and especially by personal letters to such Democratic members of Congress as you happen to know.

Permit me to add that no time is to be lost, as there never was a time when the lobbyists, and paid forces of the Silver Ring were more active than now.

It is apparent to every thinking man, that the only safe course for the party is, to keep the Silver question out of Congress, and out of the platform. Your services to the party at this juncture, are of the highest value. I am certain you will pardon my asking you to exert them in the two directions suggested, as well as in any other you think of.

Every man, who looks ahead can see, that if we permit the Silver Issue to creep into our campaign, we shall be so sadly defeated as to make us sorry we nominated, or adopted a platform in 1892. We have educated the party against class-legislation by the tariff discussions of the past fifteen years, and it cannot be driven into the support of the still worse class-legislation, which would authorize any mine owner or bullion speculator to take, what averages in cost (to produce) but 41 cents, to the Mint, and get a coin, which any other man must take in exchange for 100 cents worth of his labor, and his savings. The Germans have, to their great honor, always stood for sound and honest money. They would leave us in a drove, and instead of taking to the woods would go into the Republican party. The enormous Hebrew vote, always extremely intelligent upon such issues, would also all be cast against us, and before we had been engaged five weeks in the campaign most of the reading Democrats, and the bulk of the other thoughtful voters among us would be ready to smother the Free Silver swindle with their ballots.

There is not a Republican in the United States (unless he is a specially patriotic one,) but wishes the Democratic Party to espouse the cause of the Silver Kings against the people. Whatever you feel your duty to the party, and to the country, ought to be done once, Yours Truly,

MICHAEL D. HARTER.

Notice the pandering to policy. Listen to this Ohio Congressman as he tells his Democratic friends of the press confidentially that if the Democratic party wins it must sacrifice principle to policy and that any other course than this will be absolutely suicidal. Where is Democracy's boasted loyalty to principle? This great party of the untried and unwashed has but one principle, and that is devotion to policy and obstruction. As usual the Democratic party is "between the devil and the deep blue sea," and both the devil and the sea seem now to be closing in on 'em.

Of Interest to Teachers.

In order that the good people of Ohio county may have some idea of the responsibility resting upon those whose duty it is to determine the fitness of persons who would enter the Common School, and that they may become better acquainted with the character of a certain class of applicants who aspire to a place in the Teachers' profession, I give below exact copies (save names and post-fices) of two letters recently received:

MR. JOE ROGERS, HARTFORD, KY.

—OHIO CO., KY.

August 3, 1891

DEAR SIR:—I wrote you a letter some time ago, stating that I desired you send my examining papers home, and you did not send them, and more than that, you didn't reply by letter or card telling why.

I want you to send my "answers" to me or give some satisfaction as regards the examination, the reasons why you didn't grant me a "certificate," I know something is wrong, you

may think that I received or given help to some one, —but I can put my hand upon a thousand bibles and swear that I haven't. You father said that I fell below fifty on geography, know Mr. Rogers, I know this to not be so, and if you only counted me 44 per cent on this study, you absolutely practiced fraud, and you do not deserve the credit of any honest citizen, and I am sure you will not receive them in 1894.

The Reason why you treated me as you did may be my party affiliation I know something is wrong, and the wrong is in you, and you know it too, you said, "for me not to give up the struggle but to go to school again and try it over" such hypocrisy coming from a despicable pen, I can not understand. I expect to go to school sir, and I believe I know my business, but, advice, from one, in whom there is no honesty, does not give me much courage know, Mr. Rogers, if you have got any honesty in you, you will send me my "answers" if I have you will keep them.

P. S. You may rest assured that further information will be obtained as regards this.

Jan. the 27.
—OHIO CO., KY.

Mr. J. B. Rogers.

KIND SIR I Seat my self to inform you that I am very sorry I and my sister have failed in the examination I don't consider that we have been fairly dealt with there for this is the Second time and if we have I am sure you will be willing to Send us our papers we want you to Send us our papers and money forth with or A certificate and if we have failed. I have been examined my last time while you are in there because I know just about how I stood I recollected very near all the questions and I knew what I put for an answer we have told some teachers that I think is just about as well educated as your examiners are, now Mr. Rogers I want to fairly inform you if we have failed, and they are any law we tested whether you have treated us fair or not it will Sure be tested I don't want anything but what is just and honest If you please Sir Send us an answer as soon as you get this, I have thought that it was a mighty curious thing that we haven't ever received any answer from you I herd that you said you hadn't looked over the papers but the rest had I don't know who the rest was, I thought that I it was your and Miss Mary Render business to look over them and no one else. We didn't think we was treated right last July but we studied about it and thought Mabe we had been. I know of some that was there that got first-class certificates and I know of one young Man that was there that I know well that we knew more than he did because we had gone to school together last winter and he didn't know nothing like as much as we did and he got a Second class and I think now it is a thousand wonders he didn't get first class. I will close hoping to hear from you soon, you knowed not pay any attention to my Spelling and handwriting in letter I wrote it in a hurry.

The foregoing are correct and perfect copies (except signatures and post marks) of letters addressed to Supt. Rogers, and now in my possession. Given under my hand and seal this February 10, 1892.

E. D. GUFFY,

Notary Public Ohio Co., Ky.

I hope each parent who reads these letters will pause long enough when he has finished to answer these two questions: What would have been the result if these two, or either of them, had been let into the fold? How would you like for such teachers as these persons would make to have the training of your children?

Let our noble teachers—the energetic, the true and the brave—remember that just such persons as these with just such qualifications, are continually clamoring for admission into the profession, and when they are denied as they have been and as they will be, they raise the hue and cry of ill-treatment or persecution.

Respectfully,

JO. B. ROGERS, Co. Supt.

The "Five-Cent" Congress.

(From Kate Field's Washington.)

Three hundred and fifty thousand German colonists, and several million Russians, in the famine-stricken district of Volga are perishing unaided. Starving peasants attack buildings in which they are likely to find plunder with which to secure food. The Czar has given twenty-five million dollars from his private purse to relieve his people, and still the misery goes on. In face of these facts our Lower House has disgraced itself by refusing an appropriation to convey donations of grain to suffering humanity. Nebraska has guaranteed sixty carloads of corn which will reach the seaboard about the first of next month. If the brotherhood of man be more than a ghastly farce, Messrs. Pendleton, Kilgore, Chipman and Holman will withdraw their unseemly objections, and aid American farmers in spreading the gospel of peace and good-will.

The funeral of Rev. Daniel James, ex-President Elder of the Bowling Green District, will be preached at the Colored Methodist Church, Hayti, Sunday at 3 p. m.

WASHINGTON NEWS.

Affairs at the Great Capital—Items of Interest.

Special Correspondence to the REPUBLICAN.

Mr. Grover Cleveland, for eight years the sole and only Mumbo Jumbo of that combination of odds and ends known as the Democratic party, has been effectually deposed by the Hill-Gorman-Brice Tammany combination, and this week, this once mighty mogul passed through Washington on his way home from the South, spending nearly an hour at the railroad station, and not one single individual took the trouble to go there to meet him, although his coming was well-known. Such incidents as this, small though it be of itself, tell more than columns of laborious argument. Had the Democrats in Congress not regarded Mr. Cleveland as a political back-number, they would have crowded that railroad station to pay him their respects.

Secretary Blaine was a conspicuous figure at the diplomatic dinner given this week by the President and Mrs. Harrison, and his cordial greeting of Senator Montt, the Chilean Minister, who was one of the guests, was an answer to the sensational stories about the personal relations existing between the two men.

The "gag rule" of the last House which the Democrats for two years exhausted the vocabulary of abusive epithets in describing, has been under a different name, adopted by the Democrats of the present House as a part of the code of rules under which the House will do business, or, judging by the past two months, do nothing, until March 4, 1892.

The Democrats in the House are as much afraid of a caucus as they are of the truth. The caucus was last week called to meet to-night for the purpose of discussing, and deciding, if possible, the Democratic policy towards the numerous bills which have been introduced for the free coinage of silver, has been abandoned, the leaders fearing to hold it lest the threatened split in their party should become a stern reality.

Reciprocity with Germany was formally proclaimed by the President's proclamation issued this week. The Democrats continue to publicly sneer at reciprocity and privately admit it to be a boon to the commercial and agricultural interests of the United States.

The Senate Finance Committee, will next week decide what action it will take on Senator Stewart's bill for the free coinage of silver. Present indications are that it will be favorably reported.

Postmaster-General Wanamaker and all the rest of the postal officials regard the decision of the Supreme Court in favor of the constitutionality of the anti-lottery law as a great help to them in their fight they have been making upon various lottery men for the violation of the law.

Silver and the tariff are not the only things about which there are serious differences of opinion in the Democratic ranks in Congress. Representative Bowers, of California, gave the "peanut" Democracy a scolding on the floor of the House this week, and told them some disagreeable truths. He said the people of the West wanted appropriations for the improvement of their rivers and harbors, for the erection of necessary public buildings, and for the survey of the unsurveyed lands of settlers. He warned the Democratic party that its present policy, if persisted in, would certainly result in defeat at the coming Presidential election and that the party which took a 5 cent nicker as the measure of the American people, as the Democrats propose to do, would certainly get left. The advice was thrown away, as "niggardliness" has been adopted as the Democratic motto.

Representative Holman's sweeping order to the Chairman of House Committees having appropriation bills in hand, to cut down the estimates of the Secretary of the Treasury twenty per cent, regardless of necessities, is a specimen of Democratic Statesmanship.

Attention, Republicans of the 4th Congressional District.

In accordance with the provisions of the call issued by the State Central Committee Jan. 29th, I hereby call a district convention to meet at Elizabethtown, Tuesday, March 29, 1892, for the purpose of selecting two delegates and two alternate delegates to represent the 4th Congressional District in the National Republican Convention which meets at Minneapolis June 7th; to select district officers of the State Convention and to transact such other business as may be presented.

The various County Committees will call County Conventions to select delegates for the district Convention, and will proceed in manner and form prescribed in the call recently issued by the State Central Committee.

Each county will be entitled to one vote for every 100 votes, or fraction over 50 votes cast for President Harrison in 1888.

C. M. BARNETT.

Ch'm'n 4th Cong. Dist. Rep. Com. According to the basis given above the counties of the district will be entitled to the following representation: Breckinridge...18 Bullitt...4 Grayson...15 Green...12 Hardin...14 Hart...15 Larue...7 Marion...10 Meade...6 Nelson...11 Ohio...22 Taylor...8 Washington...14.

McHenry, Ky.

A SMALL BLAZE.

The Flames Lapping at the County's Property.

About two o'clock Wednesday evening, the alarm of fire was given, and it was soon discovered that the smoke-house in the jail yard was burning. In two minutes a hundred willing hands were carrying and hurling water on the flames, and in ten minutes the fire was subdued and the jail was safe. The building though considerably damaged is not totally ruined. Loss, about \$20.

NOTES.

The world can't beat our bucket brigade.

One of our best fire-fighters had lots of "fire water" on, yet he did effective work inside the coal-house department.

Jim Polk was at home attending his sick wife and did not know of the fire till the fire brigade was on hand and at work.

Jailer Thomson says he expected to fry his bacon at the proper time, but to have it all fried at once was more than he bargained for.

The colored citizens worked nobly and earnestly. Our colored brethren can be depended on when the fiery elements attempt to destroy property.

County Judge John P. Morton sounded the alarm. Ohio County's citizens can depend upon the Judge to watch their property and see that it does not go to destruction.

Dr. John White hunted for the hottest place and found it on top of the kitchen, where the flames were leaping from the meat-house. Jack is a fire-fighter "from away back" as has been demonstrated by his work here on more than one occasion.

John Bean caught a coal of fire in his trousers pocket as it rolled from the roof. It did not take John long to find out that a fire had broken out in a new place and it did not require a second alarm before the fire was extinguished. Loss in this instance was trifling.

T. J. Morton, the hustling young groceryman, has added a new show window and other improvements to his grocery on Market Street.

College Happenings.

Once again we have the pleasure of relating the happenings of a week at the College. We are still of the opinion that Hartford has the finest school in this part of the country. The teachers and students are doing splendid work.

L. M. Renter and sister, Miss Mary, W. F. Schapire and Miss Lura Williams, Marvin Bean and Miss Ada Porter, J. S. Vaught, attended General Exercises on last Friday morning.

Rev. G. B. McDonald, Greenville, pastor of the C. P. Church at this place, gave the school a call Monday morning. But owing to ill-health did not conduct General Exercise. We hope Bro. McDonald will favor us with his presence again soon, and be able to treat the school with one of his fine talks.

Mrs. J. S. Vaught, Misses Jessie Ford, Matie Sandefur, Lulu Walker, Prof. Hawkins, Dr. E. B. Pendleton honored the school with their presence at General Exercises Monday morning.

FINE HORSES!

Messrs. Minton & Thornton will arrive next week with their Stock, and will be at the Fair Grounds until the sale. They will have one carload that is Standard and Registered. They will bring Mary B, sired by Pandams, son of Mambrino Russell, first dam by Robert McGregor, record of 2:17½. This is a great filly, and will make a trotter sure; and also bring Phantagnette, by Teller, he by Alcade, her first dam by Pierson, he by Hambletonian. This mare is fine, and a trotter—can show a 2:40 gait; also will bring Annie Gay, Catalpa, Bettie C, Hat-tie L, and those represent the blood of the greatest sires that ever lived. They are descendants of such great sires as George Wifkes, Robert McGregor, Onward, Mambrino, Chief, Hambletonian, Alexanders, Abdallah, and other great sires that are the foundation of all trotters. This is only a partial list of their stock, and they have many others that are equally as good and well bred, that will show for themselves on day of sale.

Never were prices higher for good horses than now. They sold out of sight on last Monday at Lexington; 53 head brought \$150,725, an average of \$2,957 a piece. Let us raise some of this kind.

The Pittsburgh Lamp is one of those inventions that seems to be finished. It seems to reach the end as to goodness of light in every way, and ease of management.

The only care it requires is sifting and wiping.

Dirt falls out when the chimney is taken off, not into a pocket as in other central-lamp lamps.

Putting in a new wick is a very easy matter indeed.

All this seems strange to one who knows how troublesome other good lamps are.

It is in all the good lamp stores. Send for a primer.
